

INTRODUCING Cutting-Edge Onsite Point-of-Care Laboratory Testing

Are you experiencing challenges finding a laboratory to provide clinical laboratory testing and phlebotomy services for your facilities?

At **AchieveDx**, we're revolutionizing healthcare delivery for skilled nursing facilities and clinical settings. Our comprehensive onsite laboratory testing services bring precision diagnostics directly to your doorstep, ensuring faster, more accurate results and ultimately improving patient care.

Why choose AchieveDx?

Are you experiencing challenges with cost, the availability of phlebotomy services, or Point-of-Care STAT testing?

If so, please contact us for more information on how we can help your facility.

CONVENIENCE

Our team of highly trained clinicians, including nurses and phlebotomists, come to you, providing hassle-free onsite testing.

RAPID RESULTS

Timely results are crucial for effective patient care. With our point-of-care testing, you'll receive accurate results in minutes, not days, allowing for immediate treatment decisions.

PATIENT-CENTERED CARE

We understand that your patients deserve the best care possible. Our services are designed to enhance the patient experience, reduce stress, and promote better outcomes.

More Benefits for Your Facility:

STREAMLINED WORKFLOW

Reduce administrative burden and improve efficiency with onsite testing.

IMPROVED CLINICAL DECISION-MAKING

Make informed treatment decisions faster.

INFECTION CONTROL

Minimize the risk of infections associated with off-site testing.

ENHANCED PATIENT SATISFACTION

Provide a superior level of care that sets your facility apart.

INTRODUCING epoc NXS

A handheld system that provides comprehensive critical care results at the patient's side in less than 1 minute and is integrated for patient safety.

The system delivers a streamlined patient testing process that advances care delivery and accelerates clinical decisions while empowering the laboratory and caregivers to optimize their use of time and resources. It also serves as the **nexus of care**—connecting the patient and test results to caregivers and the laboratory while delivering a complete, comprehensive clinical picture.

Transform patient care with fast, accurate patient testing.

LAB-ACCURATE RESULTS IN MINUTES

Have the clinical information needed to make treatment decisions during the patient's visit.

IMPROVE PATIENT SATISFACTION

Minimize delays and reduce return visits due to unavailable lab results, which can improve patient satisfaction.

SIMPLIFY TESTING

Easy, intuitive operation.

BROAD TEST MENU

Lab-accurate results for a wide range of tests, including chemistries, blood gas, coagulation, cardiac markers, and more.

OPTIMIZE SYSTEM EFFICIENCY

Eliminate process steps and handoffs, helping to reduce errors.
